Parent First Aid Awareness Course

Working with a multi award winning company, classes are delivered in a relaxed and comfortable style and give you confidence to know what actions to take if faced with a medical emergency for your baby or child.

There are no formal assessments, parents, carers grandparents and babysitters alike, can take part in as much or as little as they wish.

The participant will:

- 1.1 Know what constitutes a good practical First Aid kit for the home environment.
- 1.2 Recognise when a baby or child is not breathing and summon emergency assistance.
- 1.3 Be able to undertake emergency CPR on a baby and child.
- 1.4 Provide general treatment for a burn and distinguish when First Aid ends and professional treatment is required.
- 1.5 Be able to stem external bleeding in a child or baby and recognise when professional assistance would be required.
- 1.6 Recognise the signs and symptoms of shock and know how to treat it.
- 1.7 Differentiate between gagging and choking in a baby or child and know what immediate emergency treatment would be required from a parent/carer.
- 1.8 Recognise the signs and symptoms of meningitis and sepsis.
- 1.9 Recognise the causes of febrile seizures and convulsions, take preventative measures to prevent them and deal with them effectively if they occur.
- 1.10 Recognise and treat bumps to the head and recognise when professional treatment may be required.
- 1.11 Recognise the signs and symptoms of broken bones, to make a baby or child comfortable until professional assistance can be reached.

Cost:

- £20 per person
- This course can be delivered in your own home for a minimum of 5 people
